

Fuel Up to Play 60 Homeroom

Educator Guide

Introducing the Fuel Up to Play 60 Homeroom!

Fuel Up to Play 60 is excited to share a new digital resource that supports engagement with the Fuel Up to Play 60 program – from anywhere!

Fuel Up to Play 60 Homeroom has been created using Google Slides – a popular online content creation tool – and is populated with fun and engaging “edu-tainment”-style content for your students to complement existing lessons and curriculum.

New content will be released every Thursday!

Go to FuelUpToPlay60.com/educator-corner for more.

What You’ll Find in Fuel Up to Play 60 Homeroom

Homeroom – The “main hub,” providing students with information and content to orient them to what’s available throughout the broader FUTP 60 Homeroom experience.

Total Health and Wellness – Healthy eating, physical activity, mindfulness – it’s all part of living well. Here, students will learn how their peers, NFL players and even farmers stay on top of their game.

A Greener Planet – We all want to work on reducing our environmental footprint. This room will provide a look at how some of the pros (like farmers!) are doing it.

Building Stronger Communities – Students will be encouraged to fuel good in their communities and will find information and stories to inspire them to take action.

Free Period – This is where the FUN lives! Contests, giveaways and exciting messages from NFL players, farmers and more.

Teachers Lounge – Visit the Teachers Lounge to find resources and program information for YOU!

Note: If you have questions or comments, please reach out to the Fuel Up to Play 60 Help Desk at (800) 752-4337.
