

Fuel Up to Play 60 Homeroom

Guide to Using and Sharing the Homeroom!

Add the Homeroom to Your Online Classroom!

The Homeroom has been created using Google Slides, making it very easy to copy and paste in to popular online learning platforms such as Schoology, Google Classroom and Seesaw!

The Homeroom URL does not change, but new content is added to the Homeroom every Thursday, making it a great tool to keep fresh content in your online classroom platform without needing to make a manual update.

Simply Copy and Paste the Homeroom URL Below

TIP: To copy the above URL to your clipboard, right click on the URL and select "Copy Link Location." Now, the URL is copied to your clipboard, and you can "Paste" it where you'd like!

Share the Homeroom with Colleagues and Friends!

Share as an Email File Attachment

To download as a file on your desktop hard drive, look for the toolbar that appears in the lower left-hand side of the screen while in the Homeroom. Click on the cog icon on the far right, select "More," and then choose whether you'd like to download the file as a PDF or PPTX. See the screenshot below.
